Santa Maria, Bulacan | sarmientokennethv@gmail.com | 0927-339-5706 | [LinkedIn](#) | [Portfolio](#)

EDUCATION

Bulacan State University – Main Campus, Malolos, Bulacan

Bachelor of Science in Computer Engineering

June 2026

Relevant Coursework: Computer Networks and Security, Systems Design, Database Management, Web Engineering, Embedded Systems

CERTIFICATIONS

CCNA: Introduction to Networks

September 2026

Networking Basics

February 2025

HCIA-AI V3.5

November 2024

EXPERIENCE

Highly Succeed Inc., Mandaluyong, Metro Manila

System Administrator / IT Sales Intern

June 2025 – July 2025

- Troubleshoot basic IT issues and tracked support requests, supporting timely resolution of technical issues and daily operations while developing practical IT support and system administration skills.
- Maintained and organized product and technical documentation using Google Sheets, improving information accuracy and accessibility while supporting efficient internal processes.
- Communicated IT service offerings and identified prospective organizations' technology requirements, supporting business development activities and strengthening technical requirement-gathering skills.
- Supported administrative and technical tasks involving documentation, organization, and stakeholder coordination, contributing to accurate and efficient day-to-day operations.

PROJECTS

Windows Server Administration and Active Directory Home Lab

July 2026

- Built and administered a Windows Server 2022 Active Directory environment in VMware, centralizing user, group, and computer management and demonstrating practical Windows Server and enterprise system administration skills.
- Configured GPOs, file services, NTFS/Share permissions, ABE, FSRM, mapped drives, and password policies, implementing centralized access control and resource management in an enterprise-style lab environment.
- Created and configured restricted Active Directory service accounts with automated workstation logon, demonstrating controlled account provisioning and least-privilege access management.

IoT-Based Early Screening System for Tap Water Safety Using Physicochemical Parameters

2025 – 2026

- Developed application features and user interfaces using Flutter and Figma to display real-time system data and support user interaction.
- Implemented Firebase database connectivity to securely store and retrieve physicochemical parameters, enabling historical data analysis and automated safety alerts.
- Contributed to the design and implementation of an integrated hardware, software, and database-driven system.

GymVision: Computer Vision-based Workout Counter with Hand Gesture Control

2023 – 2024

- Trained the MediaPipe hand-tracking model to recognize custom hand gestures for touchless workout control and exercise counting.
- Developed motion and angle detection features to improve workout tracking and support more exercise types.
- Added computer vision features to improve user interaction and automate workout monitoring during fitness sessions.

TECHNICAL SKILLS

System Administration: Windows Server, Active Directory, Group Policy, User & Group Management, File Services, NTFS & Share Permissions, Endpoint Administration

IT Support: Technical Troubleshooting, IT Documentation, Access Control, System Configuration, Operational Compliance

Applications & Database: Flutter, Firebase, SQL, Python, Java

Networking: TCP/IP, IPv4 Addressing, Subnetting, LAN, DNS, Basic Routing & Switching, VLANs

Tools: VMware, VS Code, GitHub, Figma, Wireshark

ADDITIONAL

Languages: Tagalog, English

Core Strengths: Problem Solving, Analytical Thinking, Troubleshooting, Adaptability, Teamwork, Accountability
